

How to get to

Madrid is surrounded by beautiful nearby towns, such as [Segovia](#), [Toledo](#) and [El Escorial](#). Although they're very easy to get to and make for wonderful day trips, it's often difficult to find all the info on all these places from one single site. So for each city, we provide a brief description of what to do, how to get there (by bus & train) and where it is located on the map.

If you have any suggestions as to how to make these pages better, please let us know!
